

TLDR:

This notice applies to the whole site, and specifically to the writings (PDFs) and the Q&A pages.

1. What you may do. You may access, index, and search this content, and you may use it as input to an AI system that answers questions (for example, quoting or citing a page in a generated answer). This permission is free of charge.

2. On one condition: attribution. These permissions apply only if you credit me as the author and link back to the source page on gasparsequeira.pt. If you don't attribute, you don't have permission, and your use is unlicensed.

3. What you may not do. You may not use any of this content to train or fine-tune AI models, including generative AI models. That use is expressly reserved and is not licensed. For the avoidance of doubt, this is a reservation of rights for the purposes of Article 4(3) of Directive (EU) 2019/790 and Article 75(2)(w) of the Portuguese Copyright Code (Decreto-Lei n.º 63/85, 18th version, amended by Decreto-Lei n.º 47/2023).

4. Everything else. All rights not expressly granted above are reserved.

1. WHAT YOU MAY DO – AND THE LIMITS OF IT.

1.1 You may:

1.1.1 **Access and index** this content for the purpose of operating a search tool, and return links, titles, and short snippets to your users in search results;

1.1.2 **Use this content as live input to an AI system that generates an answer to a user's query**, provided that:

- (a) The content is retrieved at query time
- (b) Used to compose that specific response and then discarded.
- (c) Not retained beyond what is needed to produce the answer.

1.1.3 **You may not**, under the permission in 1.1.2:

- (a) **Store this content in a persistent corpus, vector databases, embeddings store or other retrieval index that is kept beyond the individual query**, except for a transient technical cache no longer than reasonably necessary for delivery and cleared on a rolling basis; or
- (b) **Treat retrieval-augmented use (“RAG”) as a route to accumulate a durable copy of the content.**

<!-- For clarity: momentary, per-query use to quote or cite a page is permitted; keeping the content sitting in your systems between queries is not. -->

Building or maintaining a lasting store of this content, whether framed as “retrieval”, “grounding”, “caching” or otherwise, **requires a separate license.**
